Subject: January, 2015, Meeting Request

Good Morning Scott & Wendy,

This email is a follow-up to my previous email to each of you. My November 26, 2014, email proposed a meeting with each of you, myself, and my manager, Conner Franklin to discuss the City of Jackson's MS4 program. I had suggested mid-January next year as a target. This email is to attempt to establish that date and time. Just so you know, Conner and I had a similar meeting with Brownsville last Thursday, December 4th and considered the meeting profitable to both sides of the program, the municipality and the regulatory sides. Since Conner and I are both new to the MS4 program we believe it to be important for us to meet and visit with the key personnel of each of the programs under the regulatory authority of the Jackson Environmental office (JEFO).

It is our desire for each of our seven MS4 programs to be successful and exemplary within the environmental community. Conner and I consider the Division of Water Resources as partners in this endeavor and desire to meet those that we are partnering with so that we can better understand your challenges as the MS4 permitting program continues to evolve.

Please allow me to suggest Tuesday, January 13, 2015, as a meeting date. May I also suggest that we meet at 9:00 that morning at City Hall.

Looking forward to meeting with you.

Please advise as to your availability. If my suggested date and time will not work for you, please suggest a date and time that will.

Thanking you in advance,

James W. Scott
